### About This Content

**This is an upgrade from the Multiplayer Starter Pack to the full version of Tumblestone. Note that the price of this upgrade reflects a discount of the amount already paid for the Multiplayer Starter Pack.**

### About Tumblestone

Tumblestone is the first original action-puzzle game of the past fifteen years. Race your friends in multiplayer or challenge yourself in story mode. Solve progressively more difficult and creative puzzles, help a sausage make friends, and find out what happened to the Tumblecrown.

### Key Features

- **Competitive multiplayer:** Tumblestone's intense puzzle-solving action will turn playing "just a few more rounds" with friends into a late-night Tumblestone marathon.
- **Local multiplayer:** Up to four players on a single computer.
- **Online multiplayer:** Play online against your friends or make new ones using Tumblestone's ranked matchmaking system.
- **Bots:** Have an open slot? Play against the computer. But can anyone withstand the punishing Nightmare bot?

- 
- **Story mode:** The 40+ hour story campaign will test your puzzle-solving prowess. Featuring 10+ gameplay modifiers, challenge puzzles, and boss battles.
  - **Arcade modes:** Kick back and relax with the casual Marathon mode, scratch an intellectual itch with the Infinipuzzle mode, or get your blood pumping with the fast-paced Heartbeat mode.
  - **Leaderboards:** Online leaderboards let your friends know you're better than them.
  - **Quest:** Hundreds of unique quests to complete.
  - **Stats:** Rank up, then compare how you stack up against your friends.
  - **Personalization:** Choose from a dozen unique characters and environments.
